DENTAL ASSOCIATION OF
CALIFORNIA**

Presents:

**How Digital is Changing the
Way We Practice**

By:

Dr. David Chotiner

Wednesday
June 17, 2009

Iranian Dental Association of California
11301 W. Olympic Blvd., Suite 510
West Los Angeles, CA 90064

David Chotiner, DMD

Dr. David Chotiner grew up in the Los Angeles suburb of Northridge. After receiving his Bachelor of Science from San Diego State University, he attended Boston University's Goldman School of Dental Medicine. Returning to his roots in southern California, he opened Coastal Dental Arts in 2003. Wanting to differentiate himself from the typical dental office, it was there he realized his vision of a totally unique dental experience, by integrating the latest in cutting-edge technology and making the practice entirely paperless. In the 5+ years since he started his practice, it has grown

tremendously, due largely to placing ideal dentistry and comprehensive treatment planning at the forefront of his practice, and by keeping up with the latest in dental technology. He hopes to help his colleagues understand why embracing the future of dental technology can move their practice to the next level of efficiency.

Dr. Chotiner is a member of the AACD, ADA, CDA, San Diego County Dental Society, and San Diego Implant Study Club. Dr. Chotiner is Vice President of the San Diego Referral Network, a networking organization focused on business growth in the San Diego area. He was awarded by the San Diego Youth and Community Services for his contributions serving the adolescent homeless population in San Diego.

How Digital is Changing the Way We Practice

Dr. Chotiner will show you how to use 21st century technology to transcend your practice, your patient's perception of dentistry, and ultimately make practicing dentistry FUN for you AND your staff. We will look at the differences between CAD/CAM and Digital Impression systems. We will

look closely at the LAVA Chair side Oral Scanner, examine how it works and review cases using this technology. We will provide a Lava Chair side Oral Scanner. Demonstration and Hands on Time at the end of the program for those who wish to scan with the Lava Chair side Oral Scanner.
